COLBERT LANDFILL, Spokane County

PUBLIC MEETING ANNOUNCEMENT

August 1987

ECOLOGY TO HOLD INFORMAL PUBLIC MEETINGS

The Department of Ecology will hold two informal public meetings on September 9, 1987, at the Bishop Topal Center, 5104 Burnhill Road in Colbert. Ecology staff will respond to questions that arose during the comment period held earlier this year on alternatives to clean up problems associated with the landfill. The two sessions will cover the same material.

Ecology's Colbert Team will discuss questions that arose about air emissions, river discharges, potential flooding and erosion problems, and ground water levels. Slides and other materials will illustrate some of the possible treatment facilities.

The identical afternoon and evening meetings will provide opportunities for people with various work schedules to attend. They will also provide smaller groups for an informal exchange of information.

This is NOT another public comment period on the cleanup alternatives, and the Environmental Protection Agency (EPA) has not selected the remedy for the site. There will be a public announcement when EPA makes its selection.

INFORMAL PUBLIC MEETINGS TO ANSWER QUESTIONS
ABOUT THE PROPOSALS FOR THE COLBERT LANDFILL CLEANUP

WEDNESDAY -- SEPTEMBER 9, 1987

1:00 - 3:00 p.m.

7:00 - 9:00 p.m.
